

2014 EDITION

Avenue®

CAREFULLY CONSIDERED GIFTS

THE DEFINITIVE GIFT GUIDE

32 BRANDS
1100 EXCLUSIVE GIFTS

INNOVATIVE
& TRENDY

Avenue offers a treasure trove of high-quality items that have been thoughtfully selected for desirability and memorable impact.

Brands you can trust

Our portfolio of respected brands such as Parker, Waterman, Balmain and Thule is complemented by specially developed in-house brands Marksman, iFidelity and Elevate, which are exclusively available through Avenue.

Design Award winning and in-demand innovation

For 2014 we are proud to introduce over 230 new items, with a focus on technology and our Red Dot Design Award winning brands Elevate and Marksman. Environmental friendliness is also high on the agenda this year, offered through a wide selection of Eco and PVC-free products.

Impressive presentation

Tailored to make a lasting impression, all Avenue items are supplied in attractive gift boxes. Extensive decoration options take personalisation to a new level.

Enjoy shopping with Avenue!

Pepperdecks' Djoclade is a pocket size audio mixer with full-size professional faders. Now you can mix music from any source you have, anywhere you happen to be! Page 14.

Want to stay better connected? Belkin mobile accessories enhance the technology that connects us to the people, activities and experiences we love. Find all the products on pages 26 and 28.

What do you get when you apply a passion for extreme sports to design of urban business bags? Sturdy carriers that organise and protect all the techy toys a man likes to have on-the-go. Ogio is exclusively available in Avenue. Find the full collection on pages 47 till 49.

Look out for the Eco and NO PVC logos throughout this catalogue which identify products designed to be kinder to the environment.

5 AVENEWS

Timberland

Originally famous for its iconic yellow boot, Timberland now offers a selection of watches with the same distinctive sense of style, adventure and quality. Find them on page 96.

**COMPAGNIE
DE PROVENCE**

Now exclusively available in Avenue; Compagnie de Provence. Offering ambiance and bath & body care products made in France from natural vegetable oils, packed in urban styled gift packaging. Pages 148 and 152.

Introducing 707. A range of useful, 100% original items with an instant feel-good impact and memorable twist that ensure it'll be laugh at first sight. Check out the full collection on pages 236 till 238.

The NO PVC logo indicates the product is free of PVC. This claim may not, however, also necessarily apply to the product's packaging.

Avenue

Exclusive design and fresh bright colours make Avenue's Flow drinkware and torches shine out from the crowd. Find the products on pages 130 and 143.

Experience better comfort on-the-move thanks to accessories by Go Travel. Available at airports and now also, exclusively for customisation, in Avenue. Find the full collection on pages 109 till 112.

reddot design award winner 2013

Did you know we have products that have been recognised for their outstanding design by international award institutes? Last year, three of our exclusive items from the Elevate (page 54) and Marksman (page 226) brands received the prestigious Red Dot Award for Product Design.

THULE
SWEDEN

You might already be familiar with Thule from its roof-racks, roof-boxes and carriers. Now, a line of bags and luggage is also available to support an active lifestyle through every mode of transport, from the daily work routine to weekend adventures. The Thule bags can be found on pages 44 till 46.

Delivering superior sound in distinctive style, iFidelity's quality headphones, earphones and speakers make music more of an experience. Doesn't that sound great? Find the iFidelity items on pages 14, 16 and 19.

SEASONS

Home is where the heart is, so it's worth filling it with the things that help you cherish everyday moments. Seasons is a range home decoration, personal care and kitchenware products that add a touch of personal pleasure to any room. Seasons can be found on pages 149 till 150 and 153 till 157.

CENATRON®

Keep surfaces tidier and get more pleasure when using electronic devices. The smooth lines of Centron's high-end design objects enhance your digital experience with a sharp sense of style. Find the Cenatron collection on pages 36 and 37.

WHITELINES[®] LINK[®]

The analog way to be connected.

It's simple: dark lines distract, Whitelines[®] don't. Because the white lines in these notebooks are not detected by copiers and scanners, handwritten notes are more easily searchable via text recognition software such as Evernote. What could be clearer? The Whitelines[®] can be found on page 182.

Everybody knows the importance of making a good first impression. All our items are all presented in attractive gift boxes that raise their perceived value and so strengthen the impact of your message.

Beside the 1060 stock items of Avenue there is more to choose from. WorldSource offers a number of customisation programs with short lead time and factory prices. The WorldSource logo indicates some examples of products that can easily be customized in colour, features or packaging. There is no simpler way to shop the world for the perfect personalized promotion.

10820600 Paida earbuds		10mm	20Hz-20kHz	16 ohm	95dB	V						V

Choosing a pair of headphones or earbuds depends on different aspects such as listening experience, type of music, personal taste and usage (like for example working out, gaming or travelling). We offer headphones and earbuds for optimal enjoyment, fitting all kind of personal styles.

FEATURES EXPLAINED:

Sensitivity: This feature indicates how loud music can get given a certain input power.

Frequency Response: The frequency response refers to the range of bass, mids and treble; the standard for headphones is 20Hz-20KHz.

Impedance: In general headphones and earbuds with an impedance between 16 and 32 ohm will work with a low powered device, such as a smartphone, portable music player or other portable device.

* When using both of the USB outputs simultaneously, the maximum output current is 1.2A for USB ports and 1A for the micro USB connector.

** If used with the original smartphone/iPhone charging cable.

*** The number or percentage of charges depends on the battery capacity of the smartphone, tablet or portable device. The standard battery capacity for example for an iPhone 4s/5/5S/5C is between 1400-1560mAh, while the battery capacity of a Samsung S3 is around 2100 mAh. For the iPad 4, the battery capacity is about 11560mAh and for the Samsung Tab 3 10.1 it is about 6800mAh.

Nylon.

Exclusive design with large main compartment with padded, top-load sleeve for a 14.6" laptop and a slip pocket for aniPad/10.1" tablet. Two side heat-molded, crush-proof SafeZone™ compartments safeguard fragile gear. Cinch entry into main compartment secures everything inside the bag and serves as a second layer of protection. Organization panel keeps snacks and electronics in one place. Airflow channels on back panel provide ventilation. Padded backpack straps with a sternum strap maximize comfort. Integrated custom closure system easily slides together and releases. Stash pocket on hood keeps small items within instant reach. Side pocket keeps a water bottle close at hand.

28 x 26 x 46 cm

*Recommended decoration technique: Padprint*

### STYLISH STYLUS BALLPOINT PEN

**Metal & Plastic.**

Exclusive design pocket size stylus ballpoint pen with colored hat covering the stylus tip and matching "tie" clip. Incl. 707 gift box.

# DECORATION INFORMATION

## DEBOSSING

Debossing creates an indented image by applying a die to heat-pressed area.

- Create a unique 3D look
- Subtle tone on tone look
- Adds perceived value
- Great for real and imitaion leather product

## LASER ENGRAVING

Laser engraving is achieved through using a laser beam to precisely etch decoration into a surface.

- Create a high-class impression
- Unique tone on tone
- Superb result for metal, glass and wood

## DIGITAL PRINTING

Digital printing is similar to inkjet printing. Micro droplets of ink are squirted onto a product to create an image. The ink is instantly cured by exposing it to UV light.

- Perfect for multi coloured logos
- Create a unique effect with matt, gloss or embossed finishes
- Strong resistance to fading or damage
- Ideal for small quantities
- Can only be applied to flat or slightly curved surfaces

## PADPRINT

Pad printing or tampon printing is an indirect offset printing process that involves ink being transferred from a engraved metal plate via a silicone pad onto the product creating the image.

- Great all-round cost-effective solution
- Can be applied on virtually any shape
- Suitable for any surface texture, including soft products like stress balls
- Perfect for multi coloured logos
- Fast and economical

## DOMING

Doming is used to create a 3D version of your image by shaping a raised surface beneath the print. A mould is formed, printed and filled with epoxy which is then hardened to maintain its shape.

- Create a 3D effect
- Strong resistance to fading or damage
- Can only be applied to flat surfaces

## SCREENPRINT

Screen printing or silk screen is a printing method where the image is imposed on a mesh screen with blank areas coated with an impermeable substance. Inks are then pressed through the mesh screen to produce clear, sharp images.

- Long lasting results
- Good cost-effective solution for larger quantities
- Allows single and multi-colour decorations
- Ideal for text
- Can only be applied to flat surfaces

## EMBROIDERY

Embroidery is decorating a fabric by stitching thread in a pattern.

- Classic decoration technique
- High value look
- Suitable for both flat and irregular surfaces
- Tread colours to match any logo
- Up to 12 colours per embroidery
- High impact wool stitch

## SCREENROUND

Screen round is based on the same method as screen print but the product is turned during the printing proces, making this method suitable for curved surfaces.

- Long lasting results
- Apply sharp, high-quality decoration on curved products
- Economic choice for large quantities
- Multi-colour decoration available on a selection of pens
- Ideal for text

## HOTSTAMPING

Hot stamping is debossing with a metallic finish, created by applying foil between the to-be-decorated surface and the dye.

- Exceptional superior impression
- Create a unique 3D look
- Ideal for real and imitaion leather product
- Available in silver and gold finish

## TRANSFER

Transferring is done by first creating a screen print image on paper and then using heat and glue to transfer it onto the chosen article.

- Ideal for fabrics
- Perfect for logos with many colours
- Allows for extreme detail like small text
- Free standing text
- No contours required
- Economical solution for multicolour printing of smaller quantities
